The bright booklet and postcards are designed to challenge some of the myths about working in the NHS, while offering insights into the huge range of careers on offer.

Extensive research with students, careers professionals, teachers and those wanting to change career showed that people:

- want to feel inspired, whatever stage they're at in their career
- like to have something to 'take away' from careers events and conversations but it doesn't need to be a comprehensive booklet

- are happy to look up information for themselves
