

New handy guide for health ambassadors

We have been working with [Inspiring The Future](#) [1] to develop a handy guide for health ambassadors to help them promote the [Step into the NHS competition](#) [2] during their visits to schools.

Now in its eighth year, the Step into The NHS national annual competition supports the non-statutory framework for careers education, has strong links to the curricula for PSHE, citizenship and English. The competition is invaluable in raising awareness of the breadth of careers available in the NHS – more than 350 in fact!

The new guide aims to help health staff visiting state schools and colleges to talk confidently about their job.

The new guide aims to help health staff visiting state schools and colleges to talk confidently about their job and the route they took to get into it.

The guide contains:

- information about the Step Into the NHS schools competition
- guidance on how to structure presentations
- suggestions for lesson activities
- information on how to order our resources

We hope it will provide current health staff with support, inspiration and ideas for their visits based on the Step into the NHS competition. Visit the Step into the NHS website to [download the guide today](#) [3].
