

## Public health

Working in public health is about helping people to stay healthy and protecting them from threats to their health.

There are all sorts of roles and career opportunities within public health, from entry roles, right up to the most senior level.

### How can you make a difference?

Some areas within public health concentrate mostly on promoting healthy lifestyles such as:

- reducing harmful smoking
- reducing obesity and improving diet
- reducing harmful drinking

Other areas focus more on protecting people's health such as:

- promoting and administering vaccinations
- tackling the health effects of climate change in the UK
- reducing anti-microbial resistance
- improving mental health and tackling dementia

## What roles are available?

Here are the [core public health roles](#) [1] you can find out more about on this site:

- [health visitors](#) [2], [school nurses](#) [3] and other [public health nurses](#) [4]
