Types of nursing

Nursing gives you the opportunity to make a difference to people's lives on a daily basis. There are four key

areas of nursing you can choose to specialise in, with each leading on to a wide range of rewarding roles with plenty of scope for progression.

-
  Mental health nurse

  You'll deliver care and support to patients who are struggling with their mental health, helping them manage their condition with medication or relevant therapies.

  Becoming a mental health nurse [1]

-
  Learning disability nurse

  You'll help people with learning disabilities to live an independent and fulfilling life, working alongside a multidisciplinary team as you support patients of all ages.

  Becoming a learning disability nurse [2]

-

Adult nurse

You'll look after adult patients of all ages who suffer from long or short-term physical health conditions, assessing their needs and planning their care as you nurses them back to health.

Becoming an adult nurse [3]

-

Children's nurse

You'll work with children of all ages, from newborns to adolescents, providing treatment and care to them, and support to their parents or carers.

Becoming a children's nurse [4]

-

Nursing associate

A new role within the nursing team, you'll get the chance to work across all four fields of nursing, as well as being a stepping stone to becoming a registered nurse.

Becoming a nursing associate [5]
