Prior to starting your specialty training you need to have completed a medical degree followed by the two-year foundation programme or have equivalent competences prior to applying to CT/ST level.

This information is correct at the time of writing. Training pathways are subject to change. Further details of training pathways are available from medical royal colleges or faculties.

Neurology trainees can undertake sub-specialty training in stroke medicine. This extends the period of training to six years (ST3-ST8).

Neurology Training Pathway
Royal College of Physicians

Neurology

Core Medical Training (CMT)
2 years
or
Acute Care Common Stem (ACCS)
3 years

MRCP (UK)
