A career for you in health

Caring, compassionate, committed
Make a difference with a career in health
Some roles give you direct contact with patients, while in others you are part of a vast support network vital to delivering healthcare and preventing ill health. Some jobs are in hospitals, others are based in the community. Some require the highest academic standards, but, for many positions, employers are just looking for enthusiasm, keenness to learn and the ability to work as part of a team.

To apply for any role, either in the NHS or in an organisation that provides NHS services, or for a health-related course, you’ll need to show how you think the values of the NHS Constitution apply in your everyday work.

The NHS Constitution values are:

- Working together for patients
- Respect and dignity
- Commitment to quality of care
- Compassion
- Improving lives
- Everyone counts

Find out more about the NHS Constitution values at: [www.healthcareers.nhs.uk/nhsconstitution](http://www.healthcareers.nhs.uk/nhsconstitution)

This booklet is a handy guide to the roles in health. It is by no means a full list of professions or roles, but it gives you an idea of the number and variety of opportunities available. For a more comprehensive list of roles, visit [www.healthcareers.nhs.uk/explore-roles](http://www.healthcareers.nhs.uk/explore-roles).

There are more than 350 roles in health, and many of them are part of a wider team which works alongside medical and other professionals for the benefit of patients and the public.
Further information about careers in health

We hope this guide gives you a flavour of the many different jobs available in health.

Health Careers publishes a set of booklets with more detail about different jobs, such as entry requirements, training and development. The booklets also include real-life stories from people doing those jobs, and information about the route they took to get where they are now.

For a more comprehensive list of roles, visit: www.healthcareers.nhs.uk/explore-roles

You can download the booklets from: www.healthcareers.nhs.uk/resources

Often there is more than one entry route to a career in health, so contact the Health Careers service to find out more.

- www.healthcareers.nhs.uk
- 0345 60 60 655
- advice@healthcareers.nhs.uk

As well as contacting Health Careers, you can also get in touch with your local clinic, NHS trust/any organisation that provides NHS services or health-related services, and speak to the human resources or personnel department, or ask your local careers organisation.

Job and apprenticeship vacancies

You can search for current health and related job opportunities and apprenticeships on a number of websites:

Job vacancies in the NHS can be found at: www.jobs.nhs.uk

Job vacancies in local government can be found at: www.lgjobs.com

Job vacancies in health and other sectors can be found at: www.gov.uk/jobsearch

Apprenticeships in the health sector can be found at: www.jobs.nhs.uk and www.gov.uk/apply-apprenticeship
### Areas of work

<table>
<thead>
<tr>
<th>Allied health professions (AHPs), psychological therapies and operating department practice (ODP)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Allied health professionals and staff in the psychological therapies provide treatment and help rehabilitate adults and children who are ill, have disabilities or special needs to live life as fully as possible. They often manage their own caseloads. Staff in operating department practice provide care and support before, during and after operations.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Ambulance service</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ambulance service staff work for either the non-emergency service (which is responsible for the vast majority of patient transport) or the emergency service.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Health informatics</th>
</tr>
</thead>
<tbody>
<tr>
<td>The experts on patient information that doctors, nurses and others rely on to provide the best possible care. These professionals also manage the computer systems that support the whole NHS.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Healthcare science and pharmacy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Healthcare scientists and pharmacy staff help prevent, diagnose and treat illness using their knowledge of science and their technical skills. They can use their expertise to help save lives and improve patient care in a supporting role or in direct contact with patients.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Medical and dental</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doctors diagnose and treat illnesses, working to prevent ill health and improve wellbeing. The dental team diagnoses and treats a wide range of problems affecting the mouth, teeth and gums, and work to promote and maintain dental health.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Management</th>
</tr>
</thead>
<tbody>
<tr>
<td>Health sector managers are responsible for the people, finances and provision of equipment, buildings and services the NHS needs to deliver healthcare effectively.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Midwifery</th>
</tr>
</thead>
<tbody>
<tr>
<td>Midwives work in communities and hospitals. Their role goes well beyond delivering babies; they provide antenatal and postnatal care, counselling, support and education to new parents.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Nursing</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nurses work in hospitals and the community to treat and care for sick and injured adults and children, support their treatment and promote good health. As well as nursing patients with physical illnesses, they support those with mental health problems or learning disabilities.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Physician associate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physician associates support doctors in the diagnosis and management of patients. They work in GP practices and hospitals.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Wider healthcare team</th>
</tr>
</thead>
<tbody>
<tr>
<td>Staff in the wider healthcare team provide the vital round-the-clock back-up operation that all health organisations need to keep them running.</td>
</tr>
</tbody>
</table>
### Which jobs are included?

The following jobs are described in this booklet, colour-coded according to the corresponding area of work in health.

These jobs, and some of the associated roles and specialisms, are also listed alphabetically in the index on page 46.

For a more comprehensive list of roles, visit: [www.healthcareers.nhs.uk/explore-roles](http://www.healthcareers.nhs.uk/explore-roles)

#### Allied health professions (AHPs), psychological therapies and operating department practice (ODP)
- Art, drama and music therapist
- Dietitian
- High intensity therapist
- Occupational therapist
- Operating department practitioner
- Orthoptist
- Orthotist
- Physiotherapist
- Podiatrist
- Prosthetist
- Psychologist
- Psychological wellbeing practitioner
- Psychotherapist
- Speech and language therapist
- Therapy assistant

#### Ambulance service
- Ambulance care assistant
- Call handler
- Emergency care assistant
- Emergency medical dispatcher
- Paramedic

#### Ambulance service (cont.)
- Patient transport services controller (non-emergency call handler)
- Senior paramedic

#### Health informatics
- Clinical coder
- Health records clerk
- ICT support technician
- IT trainer
- Libraries and knowledge manager

#### Healthcare science and pharmacy
- Biomedical scientist
- Clinical perfusion scientist
- Clinical photographer
- Clinical scientist - audiology
- Clinical scientist - biochemistry
- Clinical scientist - clinical engineering
- Clinical scientist - cytogenticis
- Clinical scientist - medical physics
- Clinical scientist - microbiology

#### Healthcare science and pharmacy (cont.)
- Healthcare science assistant - anatomical pathology
- Healthcare science assistant - phlebotomy
- Healthcare science associate - cervical cytology
- Healthcare science practitioner - cardiac sciences
- Healthcare science practitioner - respiratory physiology and sleep sciences
- Pharmacist
- Pharmacy technician

#### Medical and dental
- Dental hygienist
- Dental nurse
- Dental technician
- Dental therapist
- Dentist
- Doctor
- Emergency medicine doctor
- General practitioner
- Psychiatrist

#### Management
- Finance manager
- General manager
- Human resources manager
- Sterile services/decontamination services manager

#### Midwifery
- Maternity support worker
- Midwife

#### Nursing
- Nurse
- Nursing healthcare assistant

#### Physician associate
- Physician associate

#### Wider healthcare team
- Architect
- Catering assistant
- Catering manager
- Cleaner
- Driver
- Gardener
- Health play staff
- Health promotion specialist
- Housekeeper
- Laundry assistant
- Maintenance staff
- Medical secretary
- Patient Advice and Liaison Service (PALS) staff
- Personal assistant
- Porter
- Receptionist/Telephonist
- Skilled trades staff
- Stores staff
- Ward staff

<th>Minimum qualifications</th>
<th>Skills/Qualities</th>
<th>Contact details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Ambulance care assistant</strong>&lt;br&gt;Ambulance care assistants transport patients to and from hospital and other care settings and are part of the non-emergency ambulance service.</td>
<td>A good general education and a clean driving licence are usually required. Recruitment is managed locally by individual ambulance trusts, and their requirements may vary slightly.</td>
<td>You need to be physically fit to enable you to lift, move and drive people, many of whom are frail, in safety and comfort. You need to be responsible, patient and keep a cool head in a crisis.</td>
<td>Contact your nearest ambulance service trust. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td><strong>Architect</strong>&lt;br&gt;Architects design and oversee the construction of NHS buildings and the spaces in and around them. They also help with the restoration and re-use of old or existing buildings, many of which are listed.</td>
<td>To become a registered architect (with the Architects Registration Board) you will need to undertake seven years of study and professional practice, with a final exam. Almost all subjects learned at school are relevant to architecture, so choose the subjects you are strongest in. To train, typically you will need at least two subjects at A-level or one A- and two AS-levels. Many architecture schools also accept BTEC National Diploma and other qualifications at level 3.</td>
<td>Although it is not necessary to study art, you should have an aptitude for drawing freehand and making models and collages. You will need an interest in design and construction, and have a creative outlook.</td>
<td>Royal Institute of British Architects&lt;br&gt;Tel: 020 7580 5533&lt;br&gt;Email: <a href="mailto:info@inst.riba.org">info@inst.riba.org</a>&lt;br&gt;www.architecture.com</td>
</tr>
<tr>
<td><strong>Art, drama and music therapist</strong>&lt;br&gt;Arts therapists use the creative arts – art, drama or music – to help patients with physical, mental or emotional difficulties express themselves. Through these creative mediums, they help patients with their recovery and overall wellbeing.</td>
<td>To become an arts therapist, you will need to be a graduate in order to take a postgraduate diploma/masters programme approved by the Health and Care Professions Council (HCPC). These can be achieved through either full or part-time study. Professionals, such as teachers or psychologists who have a commitment to the visual arts, may also be considered to train as arts therapists.</td>
<td>You need to be accomplished in music, art or drama and be able to relate well to patients with a range of physical, psychological and emotional challenges.</td>
<td>British Association of Art Therapists&lt;br&gt;Tel: 020 7686 4216&lt;br&gt;Email: <a href="mailto:info@baat.org">info@baat.org</a>&lt;br&gt;www.baat.org&lt;br&gt;British Association of Dramatherapists&lt;br&gt;Tel: 01242 235515&lt;br&gt;Email: <a href="mailto:info@badth.org.uk">info@badth.org.uk</a>&lt;br&gt;www.badth.org.uk&lt;br&gt;British Association for Music Therapy&lt;br&gt;Tel: 020 7837 6100&lt;br&gt;Email: <a href="mailto:info@bamt.org">info@bamt.org</a>&lt;br&gt;www.bamt.org&lt;br&gt;Health and Care Professions Council&lt;br&gt;Tel: 0300 500 6184&lt;br&gt;www.hcpc-uk.org</td>
</tr>
<tr>
<td><strong>Biomedical scientist</strong>&lt;br&gt;Biomedical scientists investigate samples of body tissue and fluids to enable doctors to diagnose and plan patients’ treatment. From cancer screening to blood transfusion and infection control, they are a vital part of the healthcare team.</td>
<td>Either an accredited integrated three-year full-time BSc Healthcare Science (life sciences - where blood sciences, cellular sciences and infection sciences can be taken as an option) or a biomedical science degree followed by a postgraduate qualification, leading to eligibility to apply for registration with the Health and Care Professions Council.</td>
<td>You need to be accurate and efficient. You need to have excellent attention to detail, to be a clear communicator and work well in a team.</td>
<td>Health and Care Professions Council&lt;br&gt;Tel: 0300 500 6184&lt;br&gt;www.hcpc-uk.org&lt;br&gt;Institute of Biomedical Science&lt;br&gt;Tel: 020 7713 0214&lt;br&gt;Email: <a href="mailto:mail@ibms.org">mail@ibms.org</a>&lt;br&gt;www.ibms.org</td>

<tbody>
<tr>
<td><strong>Catering assistant</strong></td>
<td>Catering assistants are part of a team committed to making sure food and drink for patients is nutritious and appetising.</td>
<td>Trusts’ requirements vary, but a foundation course in food hygiene may be an advantage. A good standard of literacy and numeracy is usually needed. Apprenticeships in catering and related roles are sometimes available. See page 5 for general information about searching and applying for apprenticeships.</td>
<td>You will need to be able to work as part of a busy team in a fast-moving environment, have excellent personal hygiene and a courteous manner when you come into contact with patients.</td>
<td><a href="http://www.hospitalcaterers.org">Hospital Caterers Association</a></td>
</tr>
<tr>
<td><strong>Catering manager</strong></td>
<td>Catering managers run catering departments in NHS organisations and manage staff. They are responsible for providing patients and staff with nutritious food.</td>
<td>Relevant degree, HND/BTEC or the equivalent qualification from the Institute of Hospitality.</td>
<td>You will need to be an enthusiastic team leader who can motivate staff and manage budgets.</td>
<td><a href="http://www.hospitalcaterers.org">Hospital Caterers Association</a> <a href="http://www.instituteofhospitality.org">Institute of Hospitality</a> Tel: 020 8661 4900 <a href="http://www.instituteofhospitality.org">www.instituteofhospitality.org</a></td>
</tr>
<tr>
<td><strong>Cleaner</strong></td>
<td>Cleaners (often called domestic assistants) make sure patients receive care in a safe and hygienic environment and play an important part in infection control.</td>
<td>On-the-job training in the safe use of cleaning products and equipment. A good standard of literacy and numeracy is usually needed.</td>
<td>You need to be hard-working, conscientious and able to work unsupervised.</td>
<td>Contact your nearest NHS healthcare provider. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
</tbody>
</table>

<table>
<thead>

### Healthcare science

#### Clinical perfusion scientist
Healthcare scientists working in perfusion science are vital members of the open-heart surgery team, responsible for life-support equipment.

**Description of work**
Training is a mixture of practical experience and academic study leading to a postgraduate qualification in perfusion science gained on a block-release basis. Applicants will need a relevant degree for entry onto this training.

**Skills/Qualities**
You will need an enthusiasm for, and ability in, science. You will also need to be a calm and patient person, as open-heart surgery is lengthy and intricate.

**Contact details**
Society of Clinical Perfusion Scientists of Great Britain and Ireland  
Tel: 020 7869 6891  
Email: admin@sopgbi.freeserve.co.uk  
www.scps.org.uk

#### Clinical photographer
Healthcare scientists working in clinical photography work throughout the hospital, on wards and in operating theatres, as well as in studios, providing photographic, video and graphic records of patients, their conditions and progress through treatment. They also contribute graphics for patient information and other publications.

**Description of work**
A degree in photography and a postgraduate certificate in clinical photography (usually taken on a distance learning basis while working in a post as a trainee medical illustrator) is needed and then register with the Committee for the Accreditation of Medical Illustration Practitioners (CAMIP). Graphic designers can also do a postgraduate certificate in graphic design for health.

**Skills/Qualities**
You need an understanding of anatomy, as well as technical expertise and innovative artistic skills. You will be a good communicator, capable of being both sympathetic and professional when dealing with patients and their families, and you will be willing to accept high levels of responsibility.

**Contact details**
Institute of Medical Illustrators  
Tel: 020 7837 2846  
Email: info@imi.org.uk  
www.imi.org.uk

#### Clinical scientist – audiology
Clinical scientists working in audiology identify and assess hearing and balance disorders in patients of all ages. They recommend and provide rehabilitation and management for patient conditions to improve their quality of life.

**Description of work**
A relevant science degree followed by a three-year post under the NHS Scientist Training Programme, which includes studying towards an accredited Master’s qualification in clinical science.

**Skills/Qualities**
You need to be good at problem solving and a good communicator. You need to combine an analytical approach with a caring and understanding attitude.

**Contact details**
British Academy of Audiology  
Tel: 01625 290 046  
Email: admin@baaudiology.org  
www.baaudiology.org

#### Clinical scientist – biochemistry
Clinical scientists working in clinical biochemistry analyse specimens of body fluids or tissues and interpret the results. They develop new techniques for doing this and advise clinicians on how to diagnose and treat disease.

**Description of work**
A relevant science degree followed by a three-year post under the NHS Scientist Training Programme, which includes studying towards an accredited Master’s qualification in clinical science.

**Skills/Qualities**
You are expected to bring a major scientific and innovative approach to the service. You must have manual dexterity to be able to carry out complex chemical and biochemical analyses, to plan and organise your laboratory work and cooperate well with the clinicians you are advising.

**Contact details**
The Association for Clinical Biochemistry and Laboratory Medicine  
Tel: 020 7403 8001

</table>
| **Dental hygiene** | Hygienists must register with the General Dental Council (GDC) to practise and applicants will need a GDC-approved qualification in dental hygiene. These are offered at degree and diploma level, candidates need five GCSEs A-C (or equivalent qualifications) to get onto a course, including English and one science, and either two A-levels, or a recognised dental nursing qualification. | You need to be manually dextrous, with good eyesight and colour vision. You are in direct contact with patients, so good communication skills and a friendly manner are essential. | British Society of Dental Hygiene and Therapy  
Tel: 01788 575050  
Email: enquiries@bsdht.org.uk  
www.bsdht.org.uk  
General Dental Council  
Tel: 020 7167 6000  
www.gdc-uk.org |
| **Dental nurse** | Dental nurses must register with the General Dental Council. There are several routes to registration and candidates will usually need some GCSEs for part-time courses, and may need A-levels or other qualifications at level 3 for some full-time courses. Apprenticeships in dental nursing are sometimes available. See page 5 for general information about searching and applying for apprenticeships. | You need to be able to respond quickly to a dentist’s requests, and to handle intricate instruments and mix small amounts of material accurately. A sympathetic manner is essential. | British Association of Dental Nurses  
Tel: 01253 338 360  
Email: admin@badn.org.uk  
www.badn.org.uk  
General Dental Council  
Tel: 020 7167 6000  
www.gdc-uk.org |
| **Dental technician** | Dental technicians make dental appliances, such as crowns, bridges and dentures, to a dentist’s or doctor’s instructions. | Five GCSEs A-C or equivalent and either two A-levels or a nationally-recognised dental nursing qualification. Dental therapists must register with the General Dental Council (GDC). To do so, you need a GDC-approved diploma or degree in dental therapy or dental therapy and hygiene. | British Association of Clinical Dental Technology  
Tel: 01159 575 370

<tr>
<td><strong>Ambulance service</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Emergency medical dispatcher</strong></td>
<td>Emergency medical dispatchers are responsible for sending an emergency vehicle to an incident as quickly, and with as much information, as possible.</td>
<td>In-service training will be provided and most employers ask for a good general education.</td>
<td>Contact your nearest ambulance service trust. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> for details and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td><strong>Ambulance service</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Emergency care assistant</strong></td>
<td>Emergency care assistants are often the first healthcare professionals on the scene of an accident. They work alongside paramedics to treat and stabilise patients before taking them to hospital.</td>
<td>A good general education and clean driving licence is usually required. Recruitment is managed locally by individual ambulance services, and their requirements may vary slightly.</td>
<td>Contact your nearest NHS healthcare provider. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td><strong>Ambulance service</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Driver</strong></td>
<td>Drivers are employed in a range of roles across healthcare, such as in the non-emergency ambulance service and NHS Blood and Transplant. They transport patient supplies, pathology specimens or even organs for transplantation.</td>
<td>An appropriate driving licence, depending on the type of vehicle applicants are required to drive.</td>
<td>Contact your nearest NHS healthcare provider. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> for details and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td><strong>Wider healthcare team</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Doctor</strong></td>
<td>There are more than 60 different specialities that doctors can work in. These include emergency medicine, general practice, psychiatry (see separate entries for these), radiology, obstetrics and gynaecology, pathology, anaesthetics, paediatrics and surgery, and medical specialties including dermatology, gastroenterology, nuclear medicine, rehabilitation and neurology.</td>
<td>High academic standards are essential to enter medical school. A wide range of high grade GCSEs, plus 3 A-levels or equivalent (usually including chemistry and another science or maths) are typically required. Applicants with non-science A-levels/equivalent can apply for medical degrees with a pre-medical year and there are also accelerated graduate entry degrees. After medical school, there are two further stages – foundation training, then specialty training in their chosen specialty.</td>
<td>Contact your nearest NHS healthcare provider. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td><strong>Allied health professions</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Dietitian</strong></td>
<td>Dietitians translate the science of nutrition into advice about food. They promote good health by working with people who have special dietary needs, inform the public and educate health professionals.</td>
<td>Dietitians must register with the Health and Care Professions Council. To do so, they need an approved qualification in dietetics at BSc level, or a first degree in a relevant subject plus an approved postgraduate qualification in dietetics.</td>

## Description of work

### Healthcare science assistant – phlebotomy
Healthcare science assistants working in phlebotomy collect blood from patients for examination in a laboratory, providing vital pointers for diagnosing illness.

### Healthcare science associate practitioner – cervical cytology
Healthcare science associate practitioners working in cervical cytology examine cervical samples under a microscope to detect early signs of cancer in women.

### Healthcare science practitioner – cardiac sciences
Healthcare science practitioners working in cardiac sciences investigate the functioning of the heart, and use a wide variety of equipment to help the heart function, such as pacemakers.

### Healthcare science practitioner – respiratory physiology and sleep sciences
Healthcare science practitioners working in respiratory physiology and sleep sciences use highly-specialised equipment to test lung function in patients experiencing chest pains or breathing difficulties, as well as those suffering with sleep disorders or who have had abnormal chest x-rays.

### High intensity therapist
High intensity therapists work with clients with a range of complex problems related to anxiety and depression. They use cognitive behavioural therapy in their work.

## Minimum qualifications

### Healthcare science assistant – phlebotomy
Six months’ training on the job, leading to a certificate of competence. There are no formal requirements, but employers usually look for a minimum of two GCSEs or equivalent. Apprenticeships in healthcare science are sometimes available. See page 5 for general information about searching and applying for apprenticeships.

### Healthcare science associate practitioner – cervical cytology
No formal requirements, but a good range of GCSEs is an advantage. Other qualifications may be considered. Applicants for these posts train on the job and sit for the Certificate in Cytology to become a qualified cervical cytology screener.

### Healthcare science practitioner – cardiac sciences
An accredited three year full-time BSc (Hons) Healthcare Science in cardiac physiology.

### Healthcare science practitioner – respiratory physiology and sleep sciences
An accredited three year full-time BSc (Hons) Healthcare Science in physiological sciences and sleep sciences.

### High intensity therapist
To train, applicants first need to secure a position as a trainee high intensity therapist. To apply, they usually need to be a registered nurse, social worker, clinical psychologist or occupational therapist.

## Skills/Qualities

### Healthcare science assistant – phlebotomy
You will need a steady hand and a calm manner. You need to be able to reassure patients of all ages, many of whom may be nervous or distressed, and handle information with tact and discretion.

### Healthcare science associate practitioner – cervical cytology
You will need patience, concentration and the ability to sit at a microscope for periods of time. You will be supervised by biomedical scientists, but you are responsible for the accuracy of your work.

### Healthcare science practitioner – cardiac sciences
You need to be friendly and professional as well as being calm, confident and sympathetic.

### Healthcare science practitioner – respiratory physiology and sleep sciences
You will need the confidence to handle both complicated equipment and nervous patients. Good communication skills are important.

### High intensity therapist
You need to show sensitivity and understanding and be able to explain the treatment you are providing. You’ll need excellent communication skills.

<tr>
<td><strong>Housekeeper</strong></td>
<td>Housekeepers help senior nurses run hospital wards by coordinating a range of ward services including: cleaning, catering, clerical, transport and linen.</td>
<td>There are no minimum entry requirements, but a good general standard of education and some experience of hotel and catering services may help.</td>
<td>You need to work well as part of a team. You’ll need to supervise staff and ensure high standards are maintained.</td>
</tr>
<tr>
<td><strong>Human resources manager</strong></td>
<td>HR managers are responsible for the recruitment, selection, appraisal, development and training of staff. They are also responsible for implementing employment legislation and for the welfare of employees.</td>
<td>Many people enter HR management from an administrative or clerical role within the NHS; applications from these staff are particularly welcome. The NHS Graduate Management Training Scheme also has a human resources management option, offering opportunities to train for very senior roles.</td>
<td>You will need good communication, time-management and organisational skills, be able to work under pressure and be assertive. You must, above all, want to work with people.</td>
</tr>
<tr>
<td><strong>ICT support technician</strong></td>
<td>ICT support technicians work as part of the health informatics team, diagnosing and fixing computer faults and installing PCs.</td>
<td>A degree in a relevant subject (eg ICT) or equivalent experience. A customer service qualification at QCF level 3 or equivalent experience may also be required. To do the job, candidates will usually be trained in Microsoft desktop support and operating systems. Apprenticeships in IT-related roles are sometimes available. See page 5 for general information about searching and applying for apprenticeships.</td>
<td>You need enthusiasm, to be a team player and be able to work efficiently in a very busy environment.</td>
</tr>
<tr>
<td><strong>IT trainer</strong></td>
<td>IT trainers are responsible for training a range of healthcare professionals and supporting administrative staff in computer skills so they can use a number of information and communication systems effectively.</td>
<td>Likely to be a role for a graduate, and someone with formal training and ICT qualifications.</td>
<td>You need excellent interpersonal and presenting skills, and the ability to impart complex information and technologies to both new and experienced computer users. You need to be an expert in email, web and windows applications, to be calm and able to reassure nervous trainees.</td>
</tr>
<tr>
<td><strong>Laundry assistant</strong></td>
<td>Laundry assistants ensure wards and theatres are supplied with clean linen, including gowns and sheets. They operate steam cabinets, use steam and vacuum presses or finish items by hand.</td>
<td>In-house training. No formal entry requirements.</td>
<td>You will need to be physically fit as well as having an eye for detail.</td>
</tr>

### Libraries and knowledge manager

Staff in this role lead the development of a trust’s knowledge management services – including physical libraries and online information and journals – so that all staff and others can access the information they need.

**Description of work**

A degree in library and information management (or similar qualification), and possibly also a management qualification. Some management experience would also be advantage.

**Minimum qualifications**

You need to be self-motivated, confident and forward-thinking, with the ability to operate at a strategic level in the organisation and to organise knowledge resources so the maximum number of people can access them.

**Skills/Qualities**

You will need a conscientious attitude and be able to work consistently to a high standard. You will need to be practical, able to work unsupervised or as part of a team.

**Contact details**

Visit [www.nhs.uk](http://www.nhs.uk) for details of local trusts and search for vacancies on [www.jobs.nhs.uk](http://www.jobs.nhs.uk)

### Maintenance staff

Maintenance staff are responsible for all aspects of the upkeep of NHS buildings and grounds, and include groundsmen/women, painters and decorators.

**Description of work**

Healthcare organisations’ requirements vary. Applicants may need some academic qualifications or specific craft qualifications as a carpenter, painter and decorator or electrician, for example. Contact employers for their requirements.

Apprenticeships in estates and maintenance roles are sometimes available. See page 5 for general information about searching and applying for apprenticeships.

**Minimum qualifications**

You will need a conscientious attitude and be able to work consistently to a high standard. You will need to be practical, able to work unsupervised or as part of a team.

**Skills/Qualities**

You will need to have a caring attitude and an interest in mothers and newborn babies.

**Contact details**

Visit [www.nhs.uk](http://www.nhs.uk) for details of local trusts and search for vacancies on [www.jobs.nhs.uk](http://www.jobs.nhs.uk)

### Maternity support worker

Maternity support workers assist midwives in caring for women and their babies through the vital stages of pregnancy, childbirth and the first few days after the birth.

**Description of work**

There are no minimum entry qualifications, but candidates will need a good general education. Successful applicants may be able to extend their role and qualifications while earning a salary.

**Minimum qualifications**

You will need to have a caring attitude and an interest in mothers and newborn babies.

**Skills/Qualities**

You need to be self-motivated, confident and forward-thinking, with the ability to operate at a strategic level in the organisation and to organise knowledge resources so the maximum number of people can access them.

Visit [www.nhs.uk](http://www.nhs.uk) for details of local trusts and search for vacancies on [www.jobs.nhs.uk](http://www.jobs.nhs.uk)

### Medical secretary

Medical secretaries deal with consultants’ or GPs’ correspondence and provide essential secretarial support.

**Description of work**

There are no formal requirements, but most healthcare organisations require a good all-round education and some may ask for OCR (or equivalent) qualifications. Applicants may also be able to work towards a qualification in medical secretarial studies through the Association of Medical Secretaries, Practice Managers and Receptionists or the British Society of Medical Secretaries.

**Minimum qualifications**

Secretarial and computer skills are essential. You’ll need accuracy, organisational ability and good communication skills.

**Skills/Qualities**

You will need to be a good listener, understanding and non-judgmental, as midwifery is as much about supporting the mother-to-be as it is helping at the birth. You will need to be calm when all around you may be distressed and you must be able to inspire and encourage.

**Contact details**

Visit [www.nhs.uk](http://www.nhs.uk) for details of local trusts and search for vacancies on [www.jobs.nhs.uk](http://www.jobs.nhs.uk)

### Midwife

Midwives help mothers-to-be and their families throughout pregnancy, labour and the first days of a newborn’s life. They work in both hospitals and the community and are trained to ensure each mother gets the care and help she wants or needs.

**Description of work**

A degree in midwifery, followed by registration with the Nursing and Midwifery Council, or a 78-week training programme for registered nurses. Qualifications for entry to courses vary.

**Minimum qualifications**

You will need to be self-motivated, confident and forward-thinking, with the ability to operate at a strategic level in the organisation and to organise knowledge resources so the maximum number of people can access them.

**Skills/Qualities**

You will need to be a good listener, understanding and non-judgmental, as midwifery is as much about supporting the mother-to-be as it is helping at the birth. You will need to be calm when all around you may be distressed and you must be able to inspire and encourage.

### Description of work

#### Nurse

Includes the four initial fields of nursing: adult/general nursing, mental health nursing, learning disability nursing and children’s nursing.

Nurses care for physically or mentally ill adults and children and provide support for their families, in hospitals and the community. The job can vary from helping someone learn basic daily tasks to administering life-saving drugs.

#### Nursing healthcare assistant

Nursing healthcare assistants have a key role in routine nursing care, such as taking and recording temperatures, helping patients with washing and spending time talking to and reassuring patients.

#### Occupational therapist

Occupational therapists help children and adults to overcome physical, psychological or social problems arising from illness or disability, by concentrating on what they are able to achieve and enabling them to live as independently as possible.

#### Operating department practitioner

Operating department practitioners are an important part of the operating theatre team, working with surgeons, theatre nurses and anaesthetists to ensure every operation is as safe and effective as possible.

#### Orthoptist

Orthoptists diagnose and treat visual problems involving eye movement and alignment. They may also screen school children.

### Minimum qualifications

#### Nurse

An approved degree or Master’s/graduate-entry programme in nursing, leading to eligibility to apply for registration with the Nursing and Midwifery Council. Candidates will usually need to choose the field of nursing they want to work in before they start training. A small number of universities offer ‘dual field’ degrees. Entry requirements vary between universities.

#### Nursing healthcare assistant

There are no minimum entry qualifications, but a good general education is needed. Successful candidates may be able to extend their role and qualifications while earning a salary. Apprenticeships in nursing care and related roles are sometimes available. See page 5 for general information about searching and applying for apprenticeships.

#### Occupational therapist

A BSc in occupational therapy (for which A-levels or equivalent are required) leading to eligibility to apply for registration with the Health and Care Professions Council. Graduates can qualify via a two-year accelerated course.

#### Operating department practitioner

An approved degree or diploma in higher education in operating department practice, and registration with the Health and Care Professions Council. Entry requirements vary between universities.

#### Orthoptist

Three or four year full-time university degree and registration with the Health and Care Professions Council.

### Skills/Qualities

#### Nurse

You will need patience, the presence of mind to juggle the medical needs of several patients at once, and the ability to set people at ease in sometimes distressing circumstances.

#### Nursing healthcare assistant

You will need to have a caring attitude, sensitivity and the ability to relate to patients of all ages and backgrounds.

#### Occupational therapist

You need patience, ingenuity and a creative, practical approach. Most of all, you will want to work closely with people to help them to lead full and satisfying lives as independently as possible.

#### Operating department practitioner

You will be working in a pressurised atmosphere on intricate and complex procedures, so you will need to be calm and able to concentrate for long periods.

#### Orthoptist

You will want to work with people and have the ability to communicate with patients of all ages. You will need precision and accuracy in your work.

</tr>
<tr>
<td>Patient Advice and Liaison Service (PALS) staff</td>
<td>PALS staff are a crucial link between patients and NHS services. They provide patients with accurate information about their conditions and progress of their treatment, and receive comments from patients about services provided.</td>
<td>Some senior PALS staff may be required to have a degree or a professional level qualification. PALS support staff will usually have a good general education and administrative skills.</td>
<td>You need to be supportive and reassuring to patients. You will need excellent verbal and written communication skills and an ability to keep concise and accurate records. More senior staff may need interviewing, presentation and people-management skills and the ability to work with senior managers and clinicians.</td>
<td>Contact your nearest NHS healthcare provider. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td>Patient transport services controller (non-emergency call handler)</td>
<td>Patient transport services controllers have a key role in ensuring that patients, many of whom are frail and elderly, get to their health appointments safely and on time.</td>
<td>Some employers ask for a certain number of GCSEs or the equivalent. Others look for a good general education.</td>
<td>You will need a calm, efficient approach under pressure and good communication skills.</td>
<td>Contact your nearest ambulance service trust. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> for details and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td>Personal assistant</td>
<td>Personal assistants provide comprehensive administration and secretarial support to senior staff.</td>
<td>Employers’ requirements may vary, but PAs need good verbal and written English, as well as typing skills and computer literacy. Apprenticeships in administration are often available. See page 5 for general information about searching and applying for apprenticeships.</td>
<td>You need to be well-organised, efficient and motivated. You need to have a pleasant manner, with excellent communication skills. You will also need to be discreet.</td>
<td>Association of Medical Secretaries, Practice Managers and Receptionists (AMSPAR)&lt;br&gt; Tel: 020 7387 6005&lt;br&gt; Email: <a href="mailto:info@amspar.com">info@amspar.com</a>&lt;br&gt; <a href="http://www.amspar.com">www.amspar.com</a>&lt;br&gt; British Society of Medical Secretaries&lt;br&gt; Tel: 0844 335 0636&lt;br&gt; <a href="http://www.bsmsa.org.uk">www.bsmsa.org.uk</a></td>

<tr>
<td><strong>Porter</strong>&lt;br&gt;Porters play a vital role, moving frail and often very ill patients between departments and wards in safety and comfort. They also transport complex and valuable equipment that may need expert handling.</td>
<td>Training is given on the job. There are no formal entry requirements, although some larger hospitals may require their porters to have a driving licence.</td>
<td>You need to be physically fit and able to walk long distances. Communication skills and a friendly manner are also useful, as you will be helping patients of all ages around the hospital.</td>
<td>Contact your nearest NHS healthcare provider. Visit <a href="http://www.nhs.uk">www.nhs.uk</a> and search for vacancies on <a href="http://www.jobs.nhs.uk">www.jobs.nhs.uk</a></td>
</tr>
<tr>
<td><strong>Prosthetist</strong>&lt;br&gt;Prosthetists provide the best possible replacement for patients who were born without a limb or who have lost one. They work with patients and technicians at every stage from designing the prosthesis to helping patients adjust to life with a new limb.</td>
<td>Four year full-time BSc in prosthetics and orthotics followed by registration with the Health and Care Professions Council. Once registered as a practitioner, you can choose to specialise either as a prosthetist or an orthotist.</td>
<td>You will need creative and technical skills to measure and create limbs that look and feel as natural as possible. You will also need patience and understanding to work closely with patients who may be traumatised.</td>
<td><a href="http://www.bapo.com">British Association of Prosthetists and Orthotists</a>&lt;br&gt;Tel: 0141 561 7217&lt;br&gt;Email: <a href="mailto:enquiries@bapo.com">enquiries@bapo.com</a>&lt;br&gt;www.bapo.com&lt;br&gt;<a href="http://www.hcpc-uk.org">Health and Care Professions Council</a>&lt;br&gt;Tel: 0300 500 6184&lt;br&gt;www.hcpc-uk.org</td>
</tr>
<tr>
<td><strong>Psychiatrist</strong>&lt;br&gt;Psychiatrists are doctors who specialise in mental illness, and the interaction between physical and mental conditions. They can specialise to work with children and adolescents, adults or the elderly and in areas including forensic or intellectual disability psychiatry.</td>
<td>High academic standards are essential to enter medical school. A wide range of high grade GCSEs, plus 3 A-levels or equivalent (usually including chemistry and another science or maths) are typically required. Applicants with non-science A-levels/equivalent can apply for medical degrees with a pre-medical year and there are also accelerated graduate entry degrees. After medical school, there are two further stages – foundation training, then specialty training in psychiatry.</td>
<td>You’ll need empathy, compassion and emotional resilience. You’ll need to be able to work under pressure, take initiative in challenging situations, be good at team working and have an analytical and scientific approach.</td>
<td><a href="http://www.rcpsych.ac.uk">Royal College of Psychiatrists</a>&lt;br&gt;General Medical Council&lt;br&gt;<a href="http://www.gmc-uk.org">www.gmc-uk.org</a></td>
</tr>
<tr>
<td><strong>Psychological wellbeing practitioner</strong>&lt;br&gt;Psychological wellbeing practitioners (PWPs) provide help and support to clients with mild to moderate depression, using a cognitive behavioural model.</td>
<td>To train, applicants first need to secure a post as a trainee PWP. To apply, they need a degree (eg in psychology) and take a postgraduate certificate. Non-graduate applicants from local communities with a range of experience can also apply and will be trained to graduate level.</td>
<td>You need to have an interest in people’s behaviour and excellent communication skills. Voluntary, paid or personal experience of working with people with mental health problems is essential.</td>
<td><a href="http://www.babcp.com">British Association of Behavioural and Cognitive Psychotherapies</a>&lt;br&gt;Improving Access to Psychological Therapies&lt;br&gt;<a href="http://www.iapt.nhs.uk">www.iapt.nhs.uk</a></td>

### Description of work

#### Senior paramedic
Senior paramedics treat patients at the scene of an accident, in their homes, at out-of-hours GP surgeries or at minor injuries units. They also help patients manage long-term conditions.

#### Skilled trades staff
Skilled trades staff include carpenters, electricians, plumbers, tilers and bricklayers.

#### Speech and language therapist
Speech and language therapists work with people of all ages who have problems with speech, from childhood lisps to elderly patients who have difficulties following a stroke.

#### Sterile services/decontamination services manager
Sterile services managers (sometimes known as decontamination service managers) are responsible for the sterile supplies needed for patient care and for ensuring that re-usable medical equipment is properly disinfected or decontaminated. Senior managers will be responsible for staff and budgets within the decontamination service they manage.

#### Stores staff
Stores staff order, maintain and deliver medical and other supplies, often keeping track of orders and stock on computer systems.

### Minimum qualifications

#### Senior paramedic
Senior paramedics are qualified paramedics who have had extended training leading to a higher education qualification. See page 34 for paramedic entry and information on the qualifications required.

#### Skilled trades staff
Employers usually require a specific skill or vocational qualification, but applicants can also get posts based on their previous experience or proven ability.

#### Speech and language therapist
A three or four-year degree through an accredited university course or a two-year postgraduate course for graduates in an appropriate discipline and registration with the Health and Care Professions Council.

#### Sterile services/decontamination services manager
Senior managers will typically need a postgraduate degree or equivalent level of knowledge and several years experience of working in decontamination services at more junior levels.

#### Stores staff
On-the-job-training is provided and there may be a chance to work towards a professional qualification. There are no formal entry requirements. Apprenticeships in stores work are sometimes available. See page 5 for general information about searching and applying for apprenticeships.

### Skills/Qualities

#### Senior paramedic
You will need to be confident in highly-pressurised situations, able to calm confused and distressed patients and their families, and build up a rapport with those suffering long-term conditions.

#### Skilled trades staff
You need the appropriate skills to work in your chosen field, and be able to work to consistently high standards.

#### Speech and language therapist
You will need excellent language, communication and listening skills, patience, a calm manner and the tact to deal with patients who are often embarrassed by their condition. You will also need good hearing.

#### Sterile services/decontamination services manager
You need meticulous attention to detail, and to be able to instil this in others.

#### Stores staff
You will need to be literate, good with numbers and have a methodical approach, as you will be handling expensive stock. Computer skills are an advantage.
